## NEW ROAD TO SMYRNA OPEN.

Sheriff Turner and the County Officials  
Inspected the New Shell Road  
Yesterday Morning.

The new shell road between Port Orange and New Smyrna is now open for travel and wagons and autos have already made the run from the latter place to Daytona.

The new road, connecting with the fine road already built between Ormond and Port Orange, gives the people a driveway paralleling the beautiful Halifax, twenty-two miles long, the majority of the way the road being on the river's bank.

Yesterday, Sheriff Turner, accompanied by several of the county officials, drove over the new road from New Smyrna to Port Orange and expressed themselves as being well pleased with the route selected and the construction of the road.

J. L. Magee drove up late in the afternoon in a 10 1/2 h. p. model B Cadillac, bringing as passengers three ladies, guests of the Clarendon, and made the run in an hour and thirty minutes. Mr. Magee states that the road is in a fair condition and needs only to be packed down to make a fine road.

Boner W. Carpenter will preach at the Christian church, on Palm- to-avenue, Sunday morning and evening. Subjects, 11:00 a. m., "The Sixth Grace," 7:30 p. m., "What We of the Christian Church Believe and Why."

H. W. Hoyt, Misses M. and F. H. Hoyt, Chicago; C. E. Lord, Sal Falls, N. H.; H. D. Norvel and wife, Cleveland; H. E. Gaffney and wife, Mrs. Burrows, Harry Gaffney, Bradford, Pa.; Ralph W. E. Hunt, J. H. Short and wife, Portland, Maine, are guests of The Palmetto.

S. D. Ellison will leave for De- land Monday and open up a Studio there where students may learn au- tomatic oil painting, a method by which the two may reproduce mas- terpieces of art.

## WEARY WILLIE ON THE ISLAND

The Display of Fireworks Given on the Island Last Night Attracted an Enormous Crowd.

The largest crowd seen in years on the streets of the city assembled last night to witness the display of fireworks which were sent up from the northwest corner of the island.

Ideal weather favored the exhibi- tion and the sea wall and bridge were alive with people.

H. H. Tilton, of Boston, was in charge of the display, which was a credit to him in every respect.

The features of the exhibit were Weary Willie and the battleship Olympia, both of which were very pretty and elicited many expressions of delight from the audience.

While the exhibit lasted but a short time, the consensus of opinion seems to be that the display was equal to the promises made by Mr. Tilton and a majority of the people left well satisfied.

## Baseball.

The two clubs composed of guests of The Palmetto, crossed bats yester- day afternoon in the presence of over one hundred people, who had assembled mainly to witness the playing of "Ban" Johnson, president of the American League.

The game was an amusing and exciting one, the large indoor ball used being rather awkward for those who were not experts. The team commanded by Mr. Gilley was de- feated by Mr. Power's team, the score being 8 to 1.

Your photo on a postal from Baker's Studio is popular just now.

A. D. Clarkson, Trenton, N. J., and C. B. Alexander, Clearfield, Pa., are guests of The Cleveland.

R. Kane and wife, Tokio, Japan; Mrs. Chas. W. Washburn, Miss Eula Copenhaver, Baltimore; C. Cyphers, Newark; L. Bossett and wife, New- burg, N. Y.; W. J. Coulter, Toronto, Ont., are guests of The Ridgewood.

## A Poem for Today

MY SHADOW  
By Robert Louis Stevenson

AS the years pass since the untimely death of Robert Louis Stevenson, poet, essayist and romancer, in 1894, his work steadily grows in public estimation. Today it was not only the many delightful qualities of his writing work which made Stevenson the best loved writer of his time," says one authority, "even more, perhaps, he was endeared to countless readers by the frank revela- tion of a most engaging personality, which shines through all his works."

I HAVE a little shadow that goes in and out with me,  
And what can be the use of him is more than I can see.  
He is very, very like me from the heels up to the head;  
And I see him jump before me, when I jump into my bed.

The funniest thing about him is the way he likes to grow—  
Not at all like proper children, which is always very slow;  
For he sometimes shoots up taller, like an india-rubber ball,  
And he sometimes gets so little that there's none of him at all.

He hasn't got a notion of how children ought to play,  
And can only make a fool of me in every sort of way.  
He stays so close beside me, like an arrant sleepy-head,  
I'd think shame to stick to nurse as that shadow sticks to me!

One morning, very early, before the sun was up,  
I rose and found the shining dew on every buttercup;  
But my lazy little shadow, like an arrant sleepy-head,  
Had stayed at home behind me and was fast asleep in bed.

## OPERA GLASSES.

Poor Ones Are the Cause of a Host of Ocular Infirmities.

The woman was not old, but she com- plained that her eye-sight was failing fast. The oculist was a fat, friendly-looking old gentleman, consequently he felt privileged to put a few questions de- cidedly personal and apparently non- professional.

"Do you go to the theater often?" he asked.

"Once or twice a week."

"In what part of the house do you sit?"

"Usually in the top gallery," came the hesitating reply.

"And how what grade of opera glasses do you use?"

"I'm afraid," said the woman, "that they are not good."

"I thought so," said the doctor. "That's what's the matter with your eyes. Poor opera glasses are ruining them. If I had my way there wouldn't be a cheap pair of opera glasses on the market. They are death to the eyes."

A couple of seasons of theater-going in the top gallery with poor glasses for a steady companion are sure to dam- age the best pair of eyes in town. Bet- ter a hundred times let the glasses alone. If you have a good, strong pair, all right, go ahead and use them. If not, trust to the naked eye for making out the mysteries of the play. The sight will not suffer half so much.

"Poor glasses will not focus prop- erly, and any one who uses them fre- quently, especially at that distance from the stage, is sowing the seed of headaches, dancing lights and stars, wrinkles and a host of other ocular in- firmities."—Chicago Tribune.

## HISTORY OF SHEEP.

Associated With Mankind From the Earliest Known Days.

Of all domesticated animals the sheep has from time immemorial been most closely associated with mankind, writes R. Henry Row in Outing. An erudite author sixty years ago, having laboriously collated an assortment of allusions to sheep made by sacred and profane writers, concluded that "the history of these animals is so inter- woven with the history of man that they never existed in a wild state at all. Biblical history from the time of Abel is full of allusions to the flocks which formed the chief possessions of the Jewish people and their neighbors. The spoils of war and the tribute of vassal kings largely consisted of sheep. Thus we read that Mesha, king of Moab, was a sheep master and rendered unto the king of Israel a hundred thousand lambs and a hundred thou- sand rams with the wool. Moses after his victory over the Midianites obtained as loot no less than 675,000 sheep, and long before the Christian era sheep

were cultivated in western Europe. Spain and Italy possessed them from an unknown period, although long after Rome was founded the inhabitants had not learned to shear the fleece, and until the time of Pliny the practice of plucking it from the skin was not wholly abandoned, so long that the humble shepherds of Syria preceded in their knowledge of necessary arts the future conquerors of their country.

## A Tale of "Tipping."

To tip or not to tip the person who but does his or her duty is a question recalling an incident set down in Wal- pole's "Reminiscences" of how a king once unwillingly encouraged the cus- tom. "This is a strange country," com- mented George I. "The first morning after my arrival at St. James I looked out of the window and saw a park with walls, canal, etc., which they told me were mine. The next day Lord Chetwynd, the ranger of my park, sent me a brace of carp out of my canal, and I was told that I must give 5 guineas to Lord Chetwynd's servant for bringing me my own carp out of my own canal in my own park!"

## The British Coast.

The most dangerous part of the British coast is that between Flam- borough head and the North Fore- land, including as it does both the Humber and the Thames. The next most dangerous district is that between Anglesea and the Mull of Cantyre, which includes the Mersey and the Clyde. Next comes that between Hartland point and St. David's head, which includes the Bristol channel. The district between the North Fore- land and St. Catherine's, including, of course, the strait of Dover, comes but fourth on the list.

## A Washout Victim.

"Say, mister," said the tattered tramp, "can't youse stake me to er dime? I'm de victim uv er washout." "Victim of a washout?" echoed the portly citizen in evident surprise. "Dat's wot," rejoined the tramp. "Honest, I ain't had nuthin' but water ter drink for more'n ten days."—Chi- cago News.

## An Odd Opinion.

Do I believe in putting a stop to swearing? No, I don't. If you prevent the workingman from swearing, and thus relieving his feelings, what will happen? Why, he will go home and murder his family.—G. Bernard Shaw.

## Might Have Been Worse.

Church—I had to walk the floor all night with the baby. Can you think of anything worse than that? Gotham —Yes, you might have married out in Greenland, where the nights are six months long.—Yonkers Statesman.

## PROPOSED AUTO BOAT RACES

Creates Much Interest Among The Business Men and Citizens Who Will Contribute a Purse.

In a conversation yesterday with several of the business men of the city in regard to auto boat races on the river, the Daily News scribe learned that much interest was being manifested in the proposed event.

As stated in a previous issue, the owners of launches have signified a willingness to enter a race. In the past all races have been gotten up by the Halifax River Yacht Club, the members of which have paid for the prizes.

One of the hotel proprietors, in speaking of the races yesterday said: "I would be far more interested in boat races than any attraction which could be gotten up. We ought to do something for the pleas- ure of the visitors who are here and if races can be gotten up to take place at an early date I will give \$5 toward buying prizes."

Over twenty dollars was pledged by different citizens in casual con- versation yesterday. Feeling sure that the majority of the business men and yacht owners will take suf- ficient interest to pull off successful races, The Daily News has decided to request subscriptions for such an event, and will publish the names of contributors and the amounts sub- scribed.

The amount of money necessary to secure the entrance of several of the boats is not large, but the more valuable the prizes the greater will be the interest manifested.

## Auto Bus.

The auto bus operated by J. C. Pettepher between here and Sea- breeze has become very popular and is well patronized by the citizens of the city.

This bus, recently built at Pette- pher's garage, is a Union auto and runs very smoothly. Under the able management of Dr. French it has made its trips regularly and without any hitch.

## BIG PRICE PAID FOR CONVICTS.

C. H. Barnes & Co., of Jacksonville, Awarded the Contract for \$207 Per Capita Per Year.

A special from Tallahassee Mon- day night, bore the information that the contract for the state convicts for the next four years was awarded to C. H. Barnes & Company, the bid being \$207 per capita per year for all convicts.

The contract was awarded in the afternoon by the Board of State In- stitutions, Governor Broward presid- ing, after the bids had been opened, in the morning, in the presence of a number of naval stores men and lawyers. From the names of the bidders it is evident that there were only naval stores operators or factors to put in a bid for the convicts.

The price which the successful bidders offered was a great surprise, however, since it was an advance of \$55.50 per capita over the price paid by the present lessees, and means an annual increase, figuring on 1,200 convicts, of about \$66,600, or an increase for the four years of the lease of \$266,400.

## Fell Thirty Feet.

W. H. Thomas, an electrician em- ployed by J. R. La Sha, fell from a telegraph pole in Waycross yesterday and had three ribs broken.

Mr. Thomas was repairing the electric light wires and was on one of the stringers using a wrench to tighten up a bolt when the wire guy rope broke, the jar throwing him from his lofty perch from which he fell head downward and landed on his shoulders. Dr. Bennett was called in and bound up the unfortunate man, who is able to walk around today but it will be some time before he will be able to return to work.

W. L. Sadler and wife, Spring- field, Mass.; E. S. McMurtrie, Mrs. Chas. L. Reed, Huntingdon, Pa.; Miss Rebecca Phillips, Miss Clara Horton, Troy, N. Y., are guests of The Desland.

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

## Decision in Post Case.

Since the news was received that the United States Circuit Court of Appeals at New Orleans had reversed the decision of the United States Court for the southern district of Florida, in the case against Mrs. Helen Williams Post, who was convicted of using the mails for fraudulent purposes, there has been considerable interest shown by attorneys and others to ascertain upon what grounds the case was reversed and a new trial granted.

The opinion of the court was delivered by Judge David A. Shelby, Circuit Judge of the Fifth Judicial Circuit. One paragraph in the opinion is considered of vast importance in connection with this case. It is as follows:

"The case should be ruled with the best understanding that the parties of mental healing is, in Federal law, as lawful as healing with drugs."

"As to the right to use the postal establishment of the United States, no discrimination is made between those whose vocation is healing, whether they be allopathists, homeopaths, osteopaths or mental scientists."

The opinion of the Court of Appeals, delivered by Judge Shelby, is a masterly presentation of the case, and covers about twenty typewritten pages. It is, as a matter of course, intensely technical. The concluding paragraph expressly disavows any intention on the part of the court to give an opinion as to mental science.

"In dealing with the issues involved," says the court, "we have not intended to express any opinion as to the substantiality of mental science, or whether it is founded on some occult law or mere parade and nomenclature. The court is not a society for physical research, charged with the duty of forming and announcing opinions on the subject. We have endeavored only to make it plain that there is nothing in this case to require a departure from the ordinary rules of evidence and familiar criminal procedure."

"The judgment must be reversed and the case remanded for a new trial."

R. R. Poston, contractor and builder, Kingston, has a five room house on Mulberry street, Kingston, for sale. Lot 50x150 ft. Price \$8,500. Also a nine room house on Fairview avenue, Daytona, lot 50x125, price \$2,200.

### CHRISTENING OF WILDERLEIGH

Attracts a Large Number of Prominent Society People.—The House Beautifully Decorated.

Wilderleigh, the hospitable home of Mrs. Jessie Wilder, Mr. and Mrs. M. Huston, Miss Wilder and Mr. and Mrs. Hummel, was the scene of a brilliant gathering of the elite of the city yesterday afternoon, the occasion being the christening of their new home, Wilderleigh.

The whole lower floor was thrown into one room and was beautifully and artistically decorated with evergreens and exquisite roses.

On entering the dwelling the ladies of the house received the guests as they arrived most graciously and they were made to feel literally at home, all formality and stiffness being entirely eliminated.

Punch was served in a tastefully arranged alcove in the reception hall and in the dining room more substantial refreshments were partaken of by the guests. Here Mrs. Seelye presided over the coffee and Mrs. W. H. Davis over the tea, assisted by Misses Clark, Atwood, Wilson and others.

During the reception the guests were most enjoyably entertained by a vocal and instrumental program under the able direction of Mr. Blount and Mrs. Moore.

Many of the intimate friends of the family were shown over the dwelling which is handsomely arranged and beautifully finished.

Nearly 300 invitations were issued for this function which was largely attended, the ladies being handsomely gowned and marks an epoch in the social life of the city.

On departing, the guests wished their entertainers many felicitous blessings of long life and happiness.

### Mayor's Court

Edna Howard was up before the Mayor this morning charged with forcibly taking a watch from Mary Hamer, both of whom are colored. It seems that Edna gave the watch to Mary some time ago and lately demanded its return; upon refusal she took the watch and in the scuffle struck the woman. He was fined \$5 and costs.

Henry McCoy, colored, was fined \$3 and costs for drunkenness and spent the night at Hotel de Zuber.

There will be a literary contest at the high school building next Friday afternoon, March 10th, at one o'clock. All interested are invited. The judges will be chosen from the citizens of Daytona.

### SIGNS OF POISON.

That a Sudden Flow of Mouth Water May Indicate.

Dr. Trail mentions the fact that a family that was attacked with a "water rage," incomprehensible until investigation revealed the fact that a lot of horse-dish in their kitchen garden had got mixed with some acornic herbs.

The sudden flow of saliva betrays the effect of some metallic poison, lead perhaps or verdigris oxide of copper, and suggests the examination of copper cooking utensils. Old fashioned silver spoons were often initiated with plated copper and in course of time furnished a clue to their bottom facts by turning black, then black with greenish tints, but only after their secret had been intimated by a spitting epidemic. It is the same with lead. Chewing a leaden bullet for a couple of seconds makes the "mouth water"—not as a hint as a desire for additional supplies, but to rinse out the palate and remove saliva that might cause mischief by finding its way into the stomach.

A decorative painter who never touched such things as Paris green or emerald without disinfecting his hands and mouth was greatly puzzled by the morbid activity of his salivary glands. He had to spit like a tobacco fiend and finally traced his trouble to a substance known as "bronze dust" that had settled on his lips and nostrils and, under the influence of moisture, had been developing copper poisons.

Paris green not rarely gets blown like dust all over the fields it is supposed to protect from insect plagues; then, moistened by dew or drizzling rain, forms a paste and clings to vegetable substances, where its presence is never suspected, till their consumers complain of colic and mouth water.

What To Eat.

### CORPSE RINGS.

What They Are and Why They Are Worn by Sailors.

"Corpse rings, eh?" said the visitor. "It's a curious, a gruesome, name. What are corpse rings?"

"Corpse rings," the collector answered, "are rings found on the bodies of drowned sailors—identification rings. Look at this thick gold one. Running around it on the outside, you see, there is carved in big, plain letters 'William Rutline, born in Camden, Me., 1865. Home, Mahabar.' Rutline was lost off the Needles in the big storm of 1897. Mahabar was communicated with, but it appeared that he had no relatives there.

"Nearly every sailor when the blues overtake him imagines he will die of drowning. He lures to think of his body washing up on a strange shore, of his homeless grave and of the anxiety of his friends when he doesn't return and no news comes of him, and therefore he buys himself an identification or corpse ring.

"Some of these rings are costly, beautiful, strange. Here is an antique Egyptian one, a ring of green bronze from a rifled tomb. Here is a wooden one, carved with little demons, for the thumb. It came, I think, from Senegambia. This ring of ivory is Japanese. It is of beautiful workmanship. The monkeys, holding each other's tails, that go around it in a circle, are quite perfect."—Baltimore Herald.

Generous. Mrs. Green—John, this isn't a very good umbrella you've brought back today.

Mr. Green—I know it, but we had that gold handled one a long time. Let some one else have it awhile. It wasn't ours anyway.—Detroit Free Press.

# DAYTONA and its ATTRactions.

## The Queen City of Florida.

From the F. E. C. Ry. Booklet.

110 Miles from Jacksonville.  
Fare one way.....\$2.30  
Round trip.....4.60  
74 Miles from St. Augustine.  
Fare one way.....\$2.20  
Round trip.....4.40

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between the source at Baboy Bay and its outlet at Mosquito Inlet. It is in latitude 29° 57' north and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded streets. The result is that all along the wide avenues that intersect the town are lovely live oaks and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-barked holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexiclimb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadam and shell roads and streets, rendering it the

**Wheelman's Paradise**  
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

**The Beautiful Cottages**  
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

**Water Supply**  
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

**The Population of Daytona**  
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze and Goodall, Seabreeze and Silver Beach,

which are properly a part of the town and population.

### Daytona Beach

Lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

### Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as mahogany, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of car wheel and vehicles into direct touch with the mainland over the road bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbside, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the gray-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

### The Peninsula

lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

### A Remarkable Feature

Daytona has been the yearly improvement in the style and value of the buildings that are being erected or homes. Men of capital of the north and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalla, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

### The Secret Societies.

Free and Accepted Masons—Halifax Lodge No. 81 meets first and third Thursday of each month at 7:30 p. m.

Halifax Royal Arch Chapter No. 8—Meets second Thursday of each month at 7:30 p. m.
